Cloud-Based Business Phone Service

What it is

For your business, Callture Cloud-Based VOIP is the most efficient way to manage a phone system. The cloud based system removes the need for expensive, error-prone, on-premise phone equipment, while providing first-rate professional functionality. It's simple to install, doesn't have a setup cost and grows with your business.

When you use Callture Cloud-Based VOIP, You Can

- ✓ Choose your own toll free numbers and local numbers
- ✓ Set up your phone system to suit your business environment
- ✓ Get all the telephonic features from call forwarding to fax
- ✓ Use your cell phone to handle calls, faxes and voicemail
- ✓ Integrate your office, mobile and employees with the system
- ✓ Save thousands of dollars worth of operating costs
- ✓ Add more phones and users anytime
